EDUCATIONS

University of Wisconsin - Madison **Madison, WI, USA**

Bachelor of Science, Computer Science and Statistics Sep 2024 - Now

- GPA 3.92 /4.0 - Dean's list (All semesters)
- Coursework: Intmed Microeconomic, Calculus III, Data Sci Programming I, Data Science Modeling I, R for Statistics, Financial Accounting, Public Address, Statistics & R language, Intro to Business.
- Vice President of Chinese Students and Scholars Association

Ruyton Girls School, Australia **Melbourne, Australia**

- Grades: 9th - 12th July. 2019 – Dec. 2023

PROFESSIONAL EXPERIENCE

Media Intern, Sina Finance — Harvard College China Forum

Harvard University, MA | Apr. 2026

- Researched guest backgrounds and drafted interview briefs ahead of the forum
- Assisted with and conducted interviews with 10+ speakers and attendees
- Compiled and organized interview notes and post-event content summaries

SDG Global Summer School — Shanghai Jiao Tong University

SJTU Shanghai | Summer 2025

- Developed a YOLO-based apple maturity detection model to support more efficient and sustainable harvesting
- Evaluated model robustness under low-light conditions, class imbalance, and prediction uncertainty
- Engaged in interdisciplinary SDG-focused project work on AI applications in sustainable agriculture

Summer Research Student — Environmental Data & Policy Analysis

Peking University | July.2025 – Sep.2025

- Collected real-time air quality and corporate emissions data
- Put together an interactive dashboard showing pollution and economic trends
- Tried out causal inference methods to better understand environmental externalities

Consumer Data & Brand Analysis, Beats by Dr. Dre **June. 2024 – Sep. 2024**

- Looked at consumer feedback and market trends to better understand brand positioning
- Helped analyze user preferences and purchasing behavior across product categories
- Pulled together findings on consumer response, branding, and competitive products

Finance Intern, Northeast Securities Co., Ltd. | Hangzhou, China **Jan. 2024 – Aug. 2024**

- Assisted equity analysts with market research, valuation modeling, and internal research report preparation.
- Used Excel and Wind to process and analyze financial data, gaining practical exposure to capital market operations and client portfolio analysis.

Asset Management Project Intern, China International Capital Corporation Limited (CICC)

Hangzhou, China **Jun. 2024 – Jul. 2024**

- Supported senior analysts in industry research and data analysis.
- Assisted in preparing research reports and presentation materials, strengthening understanding of financial

modeling methods and market analysis frameworks.

Influencer, Rednote **Jan.2022 - now**

- Created 30+ study vlog videos on RedNote, gaining 3,500 followers and 100K+ views, while building a supportive study community and collaborating with 7 brands to promote authentic digital content.

Researcher, AIA（Hong Kong) **Jan. 2023 – Feb. 2023**

- Studied differences between the financial systems of Mainland China and Hong Kong, focusing on regulation and market risk
- Examined the "Impossible Trinity" and its influence on economic policy in both regions
- Put together wealth management recommendations and presented the final report to senior mentors

EXTRACURRICULAR EXPERIENCES

Second Prize — Contemporary Undergraduate Mathematical Contest in Modeling (CUMCM) 2025

- Led a three-member team to develop and validate a complete mathematical modeling solution, demonstrating strong leadership in problem decomposition, analytical decision-making, and team coordination.

Volunteer & Data Contributor — World Artificial Intelligence Conference **Jul. 2025 – Aug. 2025**

- Created a QR-based FAQ system used by 3,000+ attendees during the conference
- Analyzed keynote themes and summarized survey feedback on AI's social impact

Volunteer — Harvard Model United Nations (COP30 Committee) **Aug. 2025**

- Supported on-site committee operations and assisted delegates during sessions
- Helped organize discussion flow and respond to participant questions

Research Trainee — Large Model Security Assessment & Enhancement Project, Chinese Academy of Sciences Aug.2025 – Sep.2025

- Completed systematic training in network security and large-model security, covering core threat models, practical defense techniques, and industry-led case studies within a national key laboratory project.

West Lake Ambassador **Aug.2025 - now**

- Hangzhou Cultural Heritage Center

Contributor, Asia-Pacific Youth Conservation **July.2025 – July.2025**

- "Youth SDGs cognitive construction and action employment workshop" – with Jinyi Zhu, Longyu

Contributor, GatherGrowth **July.2025 – July.2025**

- "Innovative Youth Zhejiang Impression"

Vice president of Chinese Students and Scholars Association **Jan 2025 – June 2025**

- Led event planning for campus-wide celebrations (e.g., Lunar New Year with 100+ attendees) and cross-cultural collaborations with SASU

Summer Student in Cornell University **June. 2023 – July. 2023**

- Completed the course "Introduction to Macroeconomic Theory and Policy", exploring economic models, fiscal/monetary policy, and global financial systems and earned a 4.0 GPA

SKILLS AND INTERESTS

- Technical skills: Python (pandas, NumPy), R (statistical analysis and data visualization), data cleaning and exploratory data analysis (EDA), regression analysis, mathematical modeling, Excel (financial and data analysis), mixed-methods analysis (quantitative and qualitative), structured analytical thinking and data-driven decision-making, data visualization and analytical reporting.
- Language: English (Bilingual), Chinese (Native)
- Interests: Chinese hard-tipped and brush calligraphy, Piano, Stock trading
